

Faithfull (FAI12512INOX)

Inox Cutting Disc 125 x 1.2 x 22.23mm

The Faithfull Inox Cutting Disc enables a quick, very clean cut with minimal effort. Ideal for precise, vibration-free metal cutting. Manufactured from aluminium oxide abrasive grit with fibreglass reinforcing, resin bonded to provide both safety and optimum cutting performance. This construction enables higher cutting speed, low material loss and low noise. Applications include: car bodywork, tank construction, steel cable, thin-walled profile sections and pipes made from stainless steel, non-ferrous metals and composite materials. Manufactured to EN 12413 standard. SAFETY TIPS Read the manufacturer's instructions carefully Wear goggles to guard against flying chips or dust Inspect the condition of the wheel frequently Adjust the guard to deflect sparks and dust Maintain the revs and let the wheel do the work This Faithfull Inox Cutting Disc has the following specification: Diameter: 125mm Thickness: 1.2mm Bore: 22.23mm Max. rpm: 12,250

Style	Diameter	Bore	-
