

Faithfull (FAI11510MUL)

# Multi-Purpose Cutting Discs 115 x 1.0 x 22.23mm (Pack 10)

The Faithfull Multi-Cut Cutting Discs will cut a wide range of materials used in the construction and fabrication industries. At only 1mm thick they are able to provide a fast cutting action with less waste and dust. Multi-Cut discs solve the problem of cutting several different materials at once and are ideal for cutting modern-day composite materials used throughout industry. Will cut sheet metal, stainless steel (inox), pipes and profiles, brick, stone, ceramic tiles and other building materials along with plastics/ PVC. These versatile discs are available in the three most popular sizes and are supplied in a sturdy metal storage tin of ten for safekeeping.
